The Awareness Center, The International Jewish Coalition Against Sexual Abuse/Assault The Awareness Center, Inc. P.O. Box 65273 Baltimore, MD 21209 443-857-5560 http://www.theawarenesscenter.org	One of the major problems in discussing the issue of sexual violence in the Jewish Community is that doing so threatens the cultural perception of the wholesomeness of the Jewish family. The time has come to break the taboo and allow the Jewish Community to face reality and to begin the healing journey. While this process is taking place we will also be able to compile valuable statistics on the prevalence of sexual violence in our community. It is important to note that when we refer to the Jewish Community we are including everyone from the unaffiliated, Jewish Renewal, Reform, Reconstructionist, Traditional, Conservative, through the Orthodox, "Charedi" and "Chasidic" communities. Our goals include the continued development of our international data base/web page; continued growth of our international speakers bureau and the development of our educational certification program for rabbis, cantors and other Jewish community leaders. We are currently in the process of the development of self-help groups for Jewish survivors in communities worldwide; and the development and implementation of our international conference on sexual violence. Our long term goals include the development a healing/retreat center and on-going educational programming in Israel, the United States, and throughout the world; along with the develop an international network of researchers. The Awareness Center, Inc. is a tax exempt - nonprofit organization. We have an international board of directors and an advisory board made up of individuals from a variety of backgrounds all dedicated to ending sexual violence in Jewish Communities around the globe and providing help to survivors.
