

## BREAKING THE ICE ON CLIMATE CHANGE EDUCATION

Faculty and staff from Baltimore area universities break the ice with a systems thinking activity at the [Baltimore Environmental Exchange \(BEE\)](#) Network's first climate change workshop.

BEE is a collaboration between Stevenson University, Loyola University Maryland, and Goucher College. The group uses a networked approach to promote capacity building around climate change education, which enables faculty and staff to promote sustainable practices within our campus communities, through both the academic curriculum and co-curricular programming. BEE is funded by the [MADE CLEAR](#) program.

October 2016, Loyola University Maryland

## NEWS

### OPERATION HYDRATION: BGE GREEN GRANTS

The average American uses 167 disposable water bottles a year and only 38 of them will make it to the recycling bin.<sup>1</sup> These plastic water bottles accumulate into the millions filling up landfills and waste incinerators across the country.

Carrying a reusable water bottle keeps you hydrated on the go and can significantly reduce your plastic waste. Loyola now has 12 water bottle filling station locations that provide cold filtered water without the unnecessary plastic.

View our [Loyola Hydration Website](#) to find your station.

Maryland Hall, first floor hydration station.

Sponsored by BGE Green Grants

### CAMPION TOWERS GOES NATIVE

Hord Coplan Macht's Campion Towers landscape sketch

The Loyola Grounds department and the university's landscape architect, Carol Macht, are reimagining the shrubbery and flowers planted along the entrance of Campion Towers. The new look will feature almost exclusively native and non-invasive species. Native plants are easier to maintain, support native biodiversity and will continue to beautify our campus.

### CARPET FOR A COOLER PLANET

# Cool Carpet™

Interface® would like to thank

**Loyola University Maryland**

for its purchase of

**8,193 square yards** of Cool Carpet.

Your purchase results in the retirement of

**89 tons**

of verified greenhouse gas emissions through reduction credits, which are associated with the entire life cycle (from raw material extraction through end of life) of your carpet.

**16-177 Certificate Number**  
**27-Feb-17 Issued**

*Erin Meezan*  
Erin Meezan  
Vice President of Sustainability, Interface

**United States**  
Interface  
1503 Orchard Hill Road  
LaGrange, GA 30240  
1.800.338.0225 ext. 56511

**178,525** Pounds of greenhouse gas (GHG) emissions offset

**11** Households worth of electricity use avoided for one year

**9,112** Equivalent gallons of gasoline not consumed

**17** Passenger cars not driven for one year

Loyola diverted 89 tons of carbon dioxide (CO<sub>2</sub>) equivalent from the atmosphere this year by purchasing 8,193 square yards of recycled and sustainable carpet squares for campus residence halls. Learn more about how [Interface](#) is creating closed loop floor products for campuses across the country.

### GROWIN' GREEN

The Loyola Community Garden is full of fresh herbs and veggies for the summer season. All of the campus community is encouraged to stop by and pick your own!

The community Garden is located on the west side of the Evergreen campus next to Avila Hall.
