Clinical Externships
Our Division provides clinical services to individuals with disabilities, injuries, and chronic medical conditions, including stroke, brain injury, spinal cord injury, multiple sclerosis, hydrocephalus, chronic pain, and cancer. Externs will work under the direct supervision of licensed psychology faculty and postdoctoral fellows to develop skills in evidence-based rehabilitation-focused interventions, neuropsychological assessment, and consultation. Externs will serve as integral members of our collaborative interdisciplinary rehabilitation teams. Externs will have the opportunity to attend our Division’s weekly didactics and monthly seminars. Training sites include multiple Johns Hopkins locations, including the Johns Hopkins Hospital (JHH), Bayview Medical Center (BVMC), and Green Spring Station (GSS). We are pleased to offer the following externship positions:

- Inpatient Rehabilitation (rotations at JHH and BVMC)
- Outpatient Rehabilitation/Neuropsychology (rotations at JHH and GSS)

Research Externships
Our Division has several active clinical research programs investigating a wide range of rehabilitation populations. Externs will work under the direct supervision of research-funded psychology faculty to develop knowledge and skills in the responsible conduct of research, study design, participant recruitment, research-focused assessment and intervention, database management, and data analysis. Externs will have the opportunity to attend our Division’s weekly didactics and monthly seminars. Opportunities for training in scholarly activities are available, including supervised manuscript peer-review, manuscript preparation, and oral presentation. Training will take place predominately at JHH, with some activities at BVMC and GSS. Positions include the following research areas:

- Inpatient Critical Care Rehabilitation Research in the Medical Intensive Care Unit (MICU)
- Outpatient Multiple Sclerosis (MS) Rehabilitation/Neuropsychology Research
- Patient Engagement and Motivational Interviewing for Health Care Providers

Eligibility
Applicants must be enrolled in an APA-accredited clinical or counseling psychology doctoral program. Applicants for clinical externships must have completed at least one previous clinical practicum. We will consider applicants enrolled in masters programs for research externships on a case-by-case basis. All applicants must pass a criminal background investigation prior to beginning training.

Commitment and Start Dates
Clinical externships: 2 days/week beginning Sept 1st (9-month commitment)
Research externships: 1 or 2 days/week beginning June 1st or Sept 1st (9- or 12-month commitment)

Application Process
The application deadline is Jan 1st, 2018. Please send a 1-page statement of interest and curriculum vitae to Abbey J. Hughes, PhD (abbeyjhughes@jhmi.edu). In your CV, please include contact information for 1-2 references. Additional questions about the application process may be directed to Dr. Hughes.
Applicants are encouraged to apply early, as applications will be reviewed on a rolling basis. In-person interviews will be conducted through Jan 31, 2018. Videoconference interviews may be considered on a case-by-case basis. Positions will be offered starting February 1, 2018 until positions are filled.
