Our programs and best practices value the priorities and aspirations of community members and deliver both opportunity and results.</p> <p>Living Classrooms has developed a distinctive competency in experiential learning – literally learning by direct</p>

	<p>experience – or what we call “learning by doing.” We utilize our environmental campuses, athletic fields, community centers, and historic ships as “living classrooms.” We work with one child, one teen, one adult, and one family at a time to identify existing barriers towards success and provide skills training, resources, and opportunities.</p> <p>Living Classrooms Foundation could not do the work it does without thousands of committed individual volunteers and groups who dedicate their time to supporting our programs. Individual volunteers must complete the Volunteer Application on the website before registering for a service opportunity.</p>

These mandates inspire us and fuel our mission to improve the lives of Marylanders in need.</p> <p>Our faith and values impel us to welcome everyone who comes to us seeking a better today and a better tomorrow. Every woman, man, and child arrives with an immediate need, and without regard to their circumstances, we open our doors and our hearts. We recognize and cherish the Divine within every person we encounter.</p> <p>Catholic Charities serves and supports children and families in crisis, people living in poverty, individuals with intellectual disabilities, our new neighbors in the immigrant community, and older Marylanders. With compassion and a standard of excellence second to none, we continue a legacy of service that began with the establishment of the Catholic Church in Baltimore in 1792.</p> <p>Students have the opportunity to refine their academic development and professional</p>
