PLACEMENT SITE	PLACEMENT & SITE INFORMATION
<p>CASA de Maryland http://wearecasa.org/</p>	<p>CASA is the largest grassroots immigrant advocacy organization in the Mid-Atlantic region. Our model focuses on blending human services, community organizing, and strategic campaigns in order to serve the full spectrum of the needs, dreams, and aspirations of our members.</p> <p>CASA was established by activists opposing U.S. interference in Latin American and the funding of military and paramilitary assaults on the communities of Central America. As the U.S. continued to invest in the destabilization of Guatemala, Nicaragua, Honduras, and El Salvador in particular, refugees began flooding into the D.C. region escaping torture and death. Since those humble beginnings, CASA has grown, lifted by waves of activism led by day laborers and domestic workers, students and parents, co-conspirators for justice in labor, faith, and civil rights organizations.</p> <p>CASA is a fierce leader for social justice, and communications internships offer a front-seat to how this work is accomplished using journalism, social media, and outreach. The intern will be a valuable part of the communications team as CASA uplifts the voices of our members and fights for social justice.</p> <p>For inquiries, call 1-866-765-2272.</p>

<p>Living Classrooms Foundation https://livingclassrooms.org/volunteer/</p>	<p>Living Classrooms provides access to more equitable education, workforce development, community safety, and health and wellness opportunities to achieve their aspirations and build safer, stronger, and healthier communities for all.</p> <p>We collaborate with community members in Baltimore and Washington, D.C. to create diverse programs that are community-driven, research-based, and ultimately designed to disrupt the ecosystem of poverty that can be directly traced to historic and contemporary racial, social, and economic disparities. Our programs and best practices value the priorities and aspirations of community members and deliver both opportunity and results.</p> <p>Living Classrooms has developed a distinctive competency in experiential learning – literally learning by direct experience – or what we call “learning by doing.” We utilize our environmental campuses, athletic fields, community centers, and historic ships as “living classrooms.” We work with one child, one teen, one adult, and one family at a time to identify existing barriers towards success and provide skills training, resources, and opportunities.</p> <p>Living Classrooms Foundation could not do the work it does without thousands of committed individual volunteers and groups who dedicate their time to supporting our programs. Individual volunteers must complete the Volunteer Application on the website before registering for a service opportunity.</p>
