Loyola University Maryland - SLP

Need Help? Contact Emilie Aguilar, ejaguilar@loyola.edu

Loyola University Maryland uses the Typhon software system for students to create clinical case logs, complete hours logs, and complete surveys related to their clinical course experience.

As a Clinical Supervisor, you will also be issued an account with Typhon in order to approve student hours, complete surveys, and submit final evaluations. Please note that if you already have a Typhon account through another University, you will still need to register one for Loyola – accounts are school-specific.

There are 3 simple steps to create an account:

1. Once Emilie Aguilar (ejaguilar@loyola.edu) receives your signed Placement Contract, an account will be created for you.
2. Look for an email from [kfvincent@loyola](mailto:kfvincent@loyola.edu) with Subject: "Loyola Typhon Account" that will contain a link to Typhon and your password reset information.
3. Go to www.typhongroup.net/loyola to sign in with your email address and chosen password.

For account questions, please contact Ms. Emilie Aguilar, ejaguilar@loyola.edu
