Sources: Montessori summer headcount census files and degree files, Office of Institutional Research

Notes:

The latest summer Montessori Census extraction on file is summer 2008.

Bolded "ENR" figures represent the total number of individuals who began the program in that cohort that semester. Naturally, "ret/grad" percentages would not apply in this instance.

[1] The number and percent graduated represents the total number of students from that cohort who graduated with a degree from that program as of spring 2012.

[2] These data represent how long it took for students to attain their degrees. This represents the percentage of students who graduated **within** the stated time frame.

[3] WMI stands for Washington Montessori Institute. The M.Ed. in Montessori Education is offered in a full-time multi-summer format (over three or four consecutive summers).
