Sources: Student headcount census files (fall and spring) and degree files, Office of Institutional Research

Notes:

Bolded "ENR" figures represent the total number of individuals who began the program in that cohort that semester. Naturally, "ret/grad" percentages would not apply in this instance.

¹ The number and percent graduated represents the total number of students from that cohort who have graduated as of spring 2012.

² These data represent how long it took for students to attain their degrees. This represents the percentage of students who graduated **within** the stated time frame.

³ Psy.D. degrees are conferred the fall of each year.
