Notes:

¹ Cohorts are adjusted according to the IPEDS graduation rate calculation; students who join the armed forces, those who are called into active duty, and the deceased are excluded based upon the semester they did not return.

² This figure represents the cumulative GPA of those students who returned as noted in the retention figures for that time period, i.e. semester, 1st - 2nd year, 1st - 3rd year, etc.

³ Students in non-Loyola study abroad programs are included in the first-to-third year retention figures. Beginning with the fall 2006 cohort, we are able to account for students who engage in a non-Loyola study abroad program in a subsequent semester.

⁴ This figure represents the GPA at graduation for those students who graduated based upon the n^5 provided.

⁵ This figure represents the number of students who took five or six years to graduate from Loyola. This number added to the number of students who graduated within four years provides the number of students who graduated within six years.

⁶ This represents the percentage of students within each cohort who graduated *within* six years.

Notes:

¹ Cohorts are adjusted according to the IPEDS graduation rate calculation; students who join the armed forces, those who are called into active duty, and the deceased are excluded based upon the semester they did not return.

² This figure represents the cumulative GPA of those students who returned as noted in the retention figures for that time period, i.e. semester, 1st - 2nd year, 1st - 3rd year, etc.

³ Students in non-Loyola study abroad programs are included in the first-to-third year retention figures. Beginning with the fall 2006 cohort, we are able to account for students who engage in a non-Loyola study abroad program in a subsequent semester.

⁴ This figure represents the GPA at graduation for those students who graduated based upon the *n*⁵ provided.

⁵ This figure represents the number of students who took five or six years to graduate from Loyola. This number added to the number of students who graduated within four years provides the number of students who graduated within six years.

⁶ This represents the percentage of students within each cohort who graduated *within* six years.

Notes:

¹ Cohorts are adjusted according to the IPEDS graduation rate calculation; students who join the armed forces, those who are called into active duty, and the deceased are excluded based upon the semester they did not return.

² This figure represents the cumulative GPA of those students who returned as noted in the retention figures for that time period, i.e. semester, 1st - 2nd year, 1st - 3rd year, etc.

³ Students in non-Loyola study abroad programs are included in the first-to-third year retention figures. Beginning with the fall 2006 cohort, we are able to account for students who engage in a non-Loyola study abroad program in a subsequent semester.

⁴ This figure represents the GPA at graduation for those students who graduated based upon the n^5 provided.

⁵ This figure represents the number of students who took five or six years to graduate from Loyola. This number added to the number of students who graduated within four years provides the number of students who graduated within six years.

⁶ This represents the percentage of students within each cohort who graduated *within* six years.

Notes:

¹ Cohorts are adjusted according to the IPEDS graduation rate calculation; students who join the armed forces, those who are called into active duty, and the deceased are excluded based upon the semester they did not return.

² This figure represents the cumulative GPA of those students who returned as noted in the retention figures for that time period, i.e. semester, 1st - 2nd year, 1st - 3rd year, etc.

³ Students in non-Loyola study abroad programs are included in the first-to-third year retention figures. Beginning with the fall 2006 cohort, we are able to account for students who engage in a non-Loyola study abroad program in a subsequent semester.

⁴ This figure represents the GPA at graduation for those students who graduated based upon the *n*⁵ provided.

⁵ This figure represents the number of students who took five or six years to graduate from Loyola. This number added to the number of students who graduated within four years provides the number of students who graduated within six years.

⁶ This represents the percentage of students within each cohort who graduated *within* six years.

Notes:

¹ Cohorts are adjusted according to the IPEDS graduation rate calculation; students who join the armed forces, those who are called into active duty, and the deceased are excluded based upon the semester they did not return.

² This figure represents the cumulative GPA of those students who returned as noted in the retention figures for that time period, i.e. semester, 1st - 2nd year, 1st - 3rd year, etc.

³ Students in non-Loyola study abroad programs are included in the first-to-third year retention figures. Beginning with the fall 2006 cohort, we are able to account for students who engage in a non-Loyola study abroad program in a subsequent semester.

⁴ This figure represents the GPA at graduation for those students who graduated based upon the *n*⁵ provided.

⁵ This figure represents the number of students who took five or six years to graduate from Loyola. This number added to the number of students who graduated within four years provides the number of students who graduated within six years.

⁶ This represents the percentage of students within each cohort who graduated *within* six years.
