- 2012-2013: Messina pilot with students in the Honors program
- 2013-2014: First 1/3 of first-year students in Messina
- 2014-2015: 2/3 of first-year students in Messina
- 2015-2016: All first-year students in Messina
- 2016-2017: All first-year students in Messina
Messina Assessment Schedule

- Messina conducts annual assessments related to our Messina Learning Outcomes. From 2012-2014 all aspects of our learning outcomes were generally assessed. In Fall 2015, we began a cyclical look at our learning outcomes through the lens of data collection.

- Our assessment cycle is as follows:
  - 2015-2016: Jesuit Mission and Values
  - 2016-2017: Critical Understanding
  - 2017-2018: Connections to Loyola Community

History of the Messina Learning Outcomes

- Extensive campus conversation led to the identification of seven learning outcomes.
- These outcomes reflect those articulated in the AAC&U’s VALUE: Valid Assessment of Learning in Undergraduate Education.
- The learning outcomes align most closely to the VALUE rubrics in the areas of:
  - personal and social responsibility and integrated learning
  - ethical reasoning
  - foundations and skills for lifelong learning
  - integrative and applied learning
- These outcomes are also strongly tied to the CAS Standards for Living Learning Programs.
Messina Learning Outcomes

- **Jesuit Mission and Values**
  - Develop habits of discernment and reflection in the Ignatian (Jesuit) tradition.
  - Explore and articulate the values and principles involved in their personal decision-making.

- **Critical Understanding**
  - Develop habits of reading, writing and intellectual conversation that support academic excellence and engagement.
  - Demonstrate increased knowledge and use of campus resources that aid critical thinking.

- **Connections to Loyola Community**
  - Establish healthy, mutually beneficial and respectful relationships with others including faculty, administrators, staff and peers.
  - Demonstrate a sense of belonging to the community at Loyola both in and out of the classroom.

- **Integrated Learning**
  - Integrate multiple sources of knowledge gained through various disciplinary lenses, texts, instruction, out of class experiences and personal reflection to offer a perspective on the interdisciplinary theme of their community.
Fall Survey Assessment Overview

- Administered to all first year students, 332 fully completed survey (33% response rate)
- Questions were centered around the Messina learning outcomes about *Connections to Loyola Community* and the Common Text
- Open between December 11-January 16
“Messina is a great program to help first years feel comfortable at such a new place and gives them a program to learn, discover, and ask questions about things that they need to understand in order to make this new place a home for them.”

Response to Question: If desired, please comment on any responses you made about the previous five areas. As a reminder these five areas were the following:

- Felt that you had support in regard to becoming a member of the Loyola community
- Felt that you had support in regard to your academic coursework
- Felt that you belonged at Loyola
- Participated in college-sponsored events and activities (may include clubs, organizations, sports, service)
- Became familiar with Baltimore

“How environmental justice and our Messina theme of the Good Life relates to every discipline one can think of, and how by going to events held on campus, the connections become more clear. For example, I constantly relate what we are learning in our class to my Philosophy class with the attainability of the Good Life, and I'm sure I will even more next semester since it is an Environmental Philosophy class.”
