Insights Discovery

The success of any business is built on the performance of its people.

We help people to perform at their highest level by improving their understanding of themselves. People can then easily adapt and connect with others, which leads to workplaces where innovation, creativity and productivity thrive.

Learning that sticks

Insights Discovery uses a language of color that is simple to understand and remember. That people can continue to use the Insights Discovery terminology on a daily basis, which is vital when conflicts arise, team dynamics change or there is a change in leadership.

How it works

Insights Discovery is a simple and accessible four color model that helps us to understand ourselves and others. Every person has all four color energies within them; it is the combination of these energies which creates each unique personality. Our color energies refer to a set of characteristics that tend to be our most preferred or most natural way to be:
When an organization helps its people reveal their individual combination of color energies, they are better equipped to stay motivated and engaged, whether working individually, in a team or as a leader.

Once our online evaluator is complete, each person receives an Insights Discovery Personal Profile. An extremely powerful tool, it can be used to resolve conflict, improve communication and help teams see the value of each other's contribution at work. Insights Discovery can be used in a workshop setting or in one-on-one coaching.
