Externship

Goucher's Student Counseling Center offers training opportunities for doctoral and masters students enrolled in clinical or counseling psychology programs. Trainees are well integrated into our team, and work alongside staff to provide mental health services to our campus.

BALTIMORE

Student Demographics & Needs

The counseling center supports students typically of ages 18-22, who experience difficulty transitioning to college life and academics, relationship issues, stress management, self-esteem, anxiety, depression, eating disorders, substance abuse, grief, loss, sexual assault, and concerns related to identity.

1

Psychotherapy

Individual and group modalities

Gain experience in screening, triage, scheduling, intake, psychodiagnostic assessment, treatment, and referral.

2

Campus Outreach

Strategic initiatives

Participate in the planning and execution of campus-wide mental health events and initiatives.

3

Crisis Intervention

Acute crisis care

Obtain training in crisis intervention, risk assessment, risk mitigation, and referral to higher levels of care.

Supervision

Trainee development is supported by one-on-one supervision, didactics seminars, case consultation meetings, and curbside consults in our open-door culture. Senior staff members provide supervision in multiple theoretical orientations and therapeutic modalities.

"Prior to my externship at Goucher, I was full of knowledge, yet lacking in experience. However, at the end of the academic year, I left feeling confident, empowered, and prepared. I was pushed past my comfort zone while simultaneously being met with the support I needed to be successful in each task I took on."

DIAMOND
Masters Extern

Apply online!

Applications for doctoral externs are due by January 1st. Applications for masters externs are due by January 1st.
